

Professional Vacancies in Ethiopian Regional States

There are plenty of professional openings currently demanded by the respective regional states of Ethiopia. Qualified Ethiopians in the Diaspora are entitled to apply by presenting their credentials to the region of their choice and the contact person of the regions.

The required fields of specialty range from laboratory technician to data base manager and to plastic surgeon and depending on their credentials, applicants must have a Bachelor of Science, Master of Science, Master of Arts, or a PhD at the time of appointment.

The employment type of the vacancies range from part-time to full-time and the duration ranges from three months to 12 months and the representatives of the regions can be directly contacted via the email, telephone, fax, and/or P. O. Box mail.

IDEA, Inc. encourages Ethiopian Diaspora professionals to engage in the development of Ethiopia beyond politics and apply for the various positions. IDEA also requests the cooperation of the Ethiopian Government in this respect and especially in respecting the independence of Ethiopian professionals and intellectuals and exhibit toleration in the spirit of cooperation for development.

For detailed information of the list of required fields of specialties, please see the table below and find the contact persons for each regional state at the very end.
